#### OVERVIEW OF FY 2015-16

National General Industries Limited ('The Company') is engaged in the production and selling of Steel. The Company has manufacturing facilities at Ghaziabad, Uttar Pradesh and Bhiwadi, Rajasthan. During the year under review the Company continues to be engaged in the handling services business for steel product in the State of Punjab.

During the year under review, the turnover of the Company from steel division decreased to Rs. 1513.37 lacs from Rs. 1631.85 lacs in previous year. The Company continues to explore business of handling services division in which turnover increased to Rs. 401.42 lakhs from Rs. 174.11 lakhs in the previous year. The Company achieved net profit before interest and tax from its steel division of Rs. 105.38 lakhs as compared to Rs. 26.22 lakhs during previous year. From the handling services division, the Company earned a net profit before interest and tax of Rs. 191.78 lakhs as compared to Rs. 84.27 lakhs during the previous year.

#### **GLOBAL ECONOMY**

The world economic growth remained subdued at 3.1% in the year 2015 as compared to 3.4% in the year 2014. During the year, the global economic activities were negatively impacted by a) a gradual slowdown and rebalancing in China leading to lower investments and negative impact on global trade flows and export dependent economies; b) overcapacities and higher output gap leading to worldwide depressed investment; c) a downward pressure on prices of energy and commodities; and d) depressed domestic demand with growing disorder of global trade has resulted in increasing trade remedial actions by various economies.

In the year 2015, the global steel demand declined by 3% to 1,500 million tonnes, primarily due to slowdown in China and globally a low investment trend. Global steel industry continued to be impacted by large overcapacity especially in China, Japan, Korea and CIS. Though the steel production decreased in all regions, the decline in production was slower than the drop in demand. Global crude steel production decreased by 2.9% to 1,621 million tonnes in 2015. Exports from steel surplus countries flooded the global steel markets leading to a severe pressure on supply and demand balance and steel price. Consequently, the negatively impacted countries intensified trade remedial actions to check the surge in imports from steel surplus countries. Meanwhile, the oversupplied iron ore and coking coal market also followed the trend of the falling steel prices.

## **INDIAN ECONOMY**

The Indian economy, however, also faced major headwinds during the year in the form of : a) slow agricultural growth due to two consecutive years of poor monsoons; b) disappointing manufacturing output owing to weak demand and low commodity prices; c) sharp contraction in exports due to weak global demand and low commodity prices; and d) growing NPA's and stressed assets. India's GDP grew by 7.6% in FY 2015-16 as against 7.3% in FY 2014-15, registering a stellar performance in a world battered by sluggish growth as well as turbulent financial and commodities markets. The Government of India has ushered in various reforms in agriculture, manufacturing and services sector to help the economy realize its full potential. The economy also benefited from declining fiscal deficit, moderating inflation, lower oil prices and an easing interest rate.

India's trade deficit declined to US\$ 5.1 billion in March 2016. This was the result of a fall in net imports by 21.6%. Stability in the political environment and the Government's pro-reform approach continued to strengthen the confidence of entrepreneurs and investors. Higher infrastructure spending, increased fiscal devolution to states and the focus on enhancing the ease of doing business resulted into improved investor sentiment and business outlook.

Despite multiple headwinds, India produces 89.8 MnT crude steel in the FY 2015-16, an increase of 0.9% since last year. In FY 2015-16, the country consumed 80.5 MnT of finished steel, growth of 4.5% over last year. The Industry growth is driven by an availability of raw materials such as iron ore and cost-effective labour. India was the only major steel consuming market globally which continued to witness increasing demand environment which has resulted in finished steel demand growth standing at 4.5% in FY 2015-16. However, the country suffered from an unprecedented, unbridled and unfair inflow of steel imports from countries like China, Japan, South Korea and Russia, which continued to sell their surplus steel production at predatory prices. South Korea and Japan, especially benefited due to the free trade agreement with India. Consequently, the consumption of domestically produced steel fell by 0.6% during the financial year. The domestic steel industry was forced to take a series of price cuts leading to a severe margin squeeze for the Indian steel companies.

The surge in imports at predatory pricing led to the Indian government first increasing import duty on carbon steel by 5%, in two steps. Subsequently, it also imposed a safeguard duty on certain hot rolled steel products. When these measures were ineffective, in February, 2016, the Government imposed a minimum import price (MIP) on various steel products for a period of six months to create a level playing field for the domestic steel industry. Meanwhile, Indian steel manufacturers continued their focus on enhancing product mix / quality standards, rationalizing cost and manufacturing value added steel products to minimize erosion of margins.

#### OUTLOOK

Global economy continues to grow, albeit at a slow pace. The industrial activities across major regions/ countries remain subdued despite sustained monetary easing. It appears that a pickup in global activity levels will be more gradual as downside risks to growth have increased with issues related to persistent deflationary environment, political uncertainty in EU and risk of Brexit, a lack of confidence on sustainability of commodities prices and volatile capital flows and currencies. The International Monetary Fund (IMF) has revised down its World Economic Growth projections for the year 2016 yet again to 3.2% compared to 3.1% in the year 2015.

Developed markets prospects remain subdued due to low investment, unfavourable demographics and weak productivity growth. The Euro Area and the US both face certain unfavourable factors. The Euro Area continues to battle migrant crisis, sub-zero inflation and high non-performing loans. In the US, economic growth is likely to be steadier in near term rather gaining any upward momentum as improved fiscal condition and housing market is being offset by lower exports, weakening manufacturing sector and declining investment in energy sector.

The emerging economies also remain vulnerable to further decline in commodity prices, currency devaluation and internal political turmoil. The Chinese economy is transitioning to a more balanced growth path after a decade of strong credit and investment growth. As the prior excesses in China's economy are unwinding its investment in real estate, manufacturing and allied industries is declining. This is impacting trade growth as well as sharp scaling down of investment in commodity market/economies. Despite all of this, the recovery, which is expected to strengthen only in the year 2017 and beyond, will be driven primarily by emerging market and developing economies as conditions in stressed economies start gradually to normalize.

## **OPPORTUNITIES, THREATS AND RISKS**

Despite challenges, India has emerged as one of the brightest spots in a world grappling with economic turbulence and fragile growth. It is expected to be the largest growing economy in the world in FY 2016-17 with a growth rate anywhere between 7.5-8% driven by the fundamentals of strong consumption and growth in real income as well as the government's push for streamlining business processes. The Indian economy continues to recover gradually as public capital expenditure, with focus on infrastructure creation and extensive urbanization / Smart Cities, and foreign direct investment continues to improve. The infrastructure project awards are seeing a picup with higher budgetary allocation. The household consumption demand is expected to benefit from the upcoming Pay Commission award, continued low commodity prices, recent interest rate cuts and measures announced in the Union Budget 2016-17 to transform the rural sector. The consumer confidence remains upbeat, while the corporate sector's expectations of business conditions remain positive. The expectations of a normal monsoon this year is likely to drive consumer discretionary spending in rural areas. Overall, the Indian economy is poised to realize the benefits of large scale capital expenditure, policy initiatives by the Government and corporate deleveraging in FY 2016-17.

As per World Steel Association, the Indian steel demand growth rate in the year 2016 is expected to be the highest amongst the top 10 steel consuming regions/countries which account for more than 85% of the world steel consumption. The Indian government's measures to pump prime economy and progress on various policy reforms underpin a constructive medium term demand outlook. However, this also makes India an attractive export destination for steel surplus countries. Imposition of minimum import price on various steel products has provided some relief; however the industry sees the need for adequate, swifter and longer shelf-life trade remedial measures to check unbridled and unfair imports of steel into India.

The global steel industry continues to face headwinds to weak demand and overcapacity. What is more worrisome is that Chinese Steel production as well as export surged back in recent months. The World Steel Association forecasts Chinese steel demand to drop by 4% in the year 2016 leading to a decline in global steel demand further by 0.8% to 1,488 MnT. In the year 2016 Steel demand in developed economies is expected to grow by 1.7% whereas it is expected to increase by just 1.8% in Emerging and Developing economies (ex-China).

## SEGMENT-WISE PERFORMANCE

A detailed note on the segment-wise performance is given under note no. 26 of the Financial Statement of the Company.

## **RISKS AND CONCERNS**

Technology obsolescence is an inherent business risk in a fast changing world and speed of change and adaptability is crucial for survival of business. Though aggressive cost cutting and addition to the product mix to incorporate more value-added products are still the present strengths of the Company, the Company is taking utmost care to ensure very high quality of products.

## INTERNAL CONTROL SYSTEM

A robust system of internal control, commensurate with the size and nature of its business, forms an integral part of the Company's policies. The Company has a proper and adequate system of internal control commensurate with the size and nature of its business. The accounting records are adequate for preparation of financial statements and other financial information. The adequacy and effectiveness of internal controls across the various business, as well as compliance with laid down systems and policies are regularly monitored by your Company's internal audit process. The Audit Committee of Board, which met four times during the year, reviewed the financial disclosures.

## FINANCIAL AND OPERATIONAL PERFORMANCE

The financial performance of the Company for the financial year ended on 31<sup>st</sup> March, 2016 and 31<sup>st</sup> March, 2015 are summarized below:-

Particulars	31.03.2016	31.03.2015
Total Income	1850.32	1795.87
Operating profit before interest and depreciation	355.08	192.07
Interest	31.33	54.83
Depreciation	52.46	50.02
Profit before Tax (PBT)	271.29	87.22
Provision for Taxation	123.18	16.95
Security Transaction Tax	0.00	0.09
Deferred Tax Liabilities	-1.96	-8.14
Minimum Alternate Tax Credit Availed	0.00	-2.17
Profit after Tax (PAT)	150.07	80.49
Balance Brought Forward	116.20	55.71
Profit available for appropriation	266.27	136.20
Transfer to General Reserve	50.00	20.00
Balance carried to Balance Sheet	216.27	116.20

During the year under review, the total income of your Company increased to Rs. 1850.32 lakhs from Rs. 1795.87 lakhs as compared to previous year. The said total income includes contribution of turnover from handling services division of the Company of Rs. 401.42 lakhs as compared to Rs. 174.11 lakhs during the previous year.

During the year, the net profit before interest and tax from steel manufacturing division increased to Rs. 105.38 lakhs from 26.22 lakhs as compared from the previous year. The increase in profitability as compared to previous year is, *inter-alia*, due to change in fuel used for the manufacturing activities of the Company. During the financial year under review, the Company has replaced coal by furnace oil for its manufacturing activities. This change has major contribution towards increase in profitability of steel manufacturing division of the Company, for the year under review.

Annual Report 2015-16

The handling services business had contributed net profit before interest and tax of Rs. 191.78 lakhs from Rs. 84.27 lakhs as compared to previous year. The other income comprising the return from investments activities has registered a net profit before interest and tax of Rs. 5.45 lakhs as compared to Rs. 70.32 lakhs during the previous year.

## INDUSTRIAL RELATIONS AND HUMAN RESOURCE MANAGEMENT

Industrial relations during the year under review were cordial and peaceful with all the 38 employees on the payroll of the Company as at end of the financial year 2015-16. The management wishes to place on record, the excellent cooperation and contribution made by the employees, at all levels of the organization to the continued growth of the Company. There was constant focus on all round organizational development.

Considering human resources as most important resource, the major thrust was on recruiting highly qualified executives in various departments and also recruiting highly skilled workers to strengthen the production. Various training programs including visionary exercises were conducted for personal as well as professional development of the employees. The Company's industrial relations continued to be harmonious during the year under review.

### ANNEXURE 'B' TO THE AUDITORS' REPORT (Referred to in our Report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of National General Industries Ltd (the Company ) as of 31 March 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

### Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures

that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2016

### 1. Corporate information

National General Industries Limited ('The Company') is engaged in the production and selling of Steel. The Company has manufacturing facilities at Ghaziabad, Uttar Pradesh and having a handling services business for steel product in the State of Punjab.

### 2. Basis of preparation

The financial statements of the company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The company has prepared these financial statements to comply in all material respects with the accounting standards notified under the Companies (Accounting Standards) Rules, 2006, (as amended) and the relevant provisions of the Companies Act, 2013. The financial statements have been prepared on an accrual basis and under the historical cost convention.

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

### 2.1 Summary of significant accounting policies:-

### (a) Tangible fixed assets

Fixed assets are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price (net of CENVAT Credit), borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

### (b) Depreciation on tangible fixed assets

Depreciation on fixed assets is provided on Straight Line Method as per rates computed based on useful life prescribed in schedule II of the Companies Act, 2013. Depreciation on revalued fixed assets is directly charged to Revaluation Reserve. No depreciation is being provided on leasehold land. Effective from 1st April, 2014, the Company has charged depreciation based on useful life of the assets as per the requirement of Schedule II of Companies Act, 2013 read with Guidance note issued by ICAI on Depreciation, Based on following useful life:-

S. No.	Nature of Assets	Useful life(In no. of Years)
1	Building	30
2	Plant & Machinery	15
3	Furniture & Fittings	10
4	Motor Vehicles	8
5	Office Equipment	5
6	Computers	3
7	Cycle	10

Due to above, additional amount of depreciation is debited to profit and loss account by Rs. 15.56 lacs during the previous year and carrying amount of assets has accordingly been revised.

### (c) Impairment

Fixed assets are reviewed for impairment whenever events or changes in circumstances indicate that their carrying amount may not be recoverable.

An impairment loss is recognized in the Statement of Profit and Loss if the carrying amount of an asset exceeds its recoverable amount.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2016

### (d) Use of estimates

The preparation of financial statements is in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities and disclosure of contingent liabilities at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

### (e) Leases (Where the Company is the lessee)

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of Profit and Loss on a straight-line basis over the lease term.

### (f) Investments

Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost.

### (g) Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

### (h) Inventories

Finished and semi-finished products produced and purchased by the Company are carried at lower of cost and net realizable value.

Work-in-progress is carried at lower of cost and net realizable value.

Raw materials purchased are carried at cost.

Store and spare parts are carried at cost.

Cost has been determined by using the FIFO method.

### (i) Revenue Recognition

- (i) Sale of goods: Revenue from sale of goods is recognized net of rebates and discounts on transfer of significant risks and rewards of ownership to the buyer. Sale of goods is recognized gross of excise duty but net of sales tax and value added tax.
- (ii) Income from Services: Revenue from services is accounted for in accordance with the terms of contracts, as and when these services are rendered.
- (iii) Interest: Revenue is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.
- (iv) Dividend: Dividend Income is recognized when right to receive is established.

### (j) Retirement and other benefits

- (i) Retirement benefits in the form of Provident Fund is a defined contribution scheme and the contributions are charged to the statement of profit and loss for the year when the contributions to respective funds are due. There are no other obligations other than the contribution payable to the fund.
- (ii) Gratuity liability is defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit credit (PUC) method made at the end of each financial year.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2016

### (k) Income taxes

Tax expense comprises of current and deferred taxes. Current income tax is measured at the amount expected to be paid to the income tax authorities in accordance with Income Tax Act, 1961. Deferred income taxes reflect the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. If the Company has unabsorbed depreciation or carry forward tax losses, entire deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that such deferred tax assets can be realized against future taxable profits.

Minimum Alternate Tax (MAT) paid in during a year is charged to the statement of profit and loss as current tax. MAT credit is recognized as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period i.e. for the period for which MAT credit is allowed to be carried forward.

### (I) Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

### (m) Contingent liability

Contingent liability is not provided for in the accounts and is recognized by way of notes.
